

## GEEP Vancouver

10281 Grace Road, Unit #100  
Surrey, BC V3V 3V7

### **PRESS RELEASE: Response to Release of Popular Mini-Series Video Featuring GEEP**

Pertaining to some negative reviews tied to the recent release of a popular mini-series video, please know that GEEP is engaged in the business of managing compliant data security of ITAD assets. Our secure and R2 compliant facilities, which offer hard drive destruction and data sanitization services, adhere to ensuring best in class security of our client's data. GEEP is not set up to sell retail computer and peripheral devices from our secure facilities and it is unfortunate this mis-understanding was not clear in the video segment. We would be glad to direct individuals to our downstream partners who do handle such sales of data wiped, refurbished, quality devices.

### **About GEEP:**

GEEP (Global Electric Electronic Processing) is a global leader in electronic asset management and end-of-life electronics recycling.

GEEP is committed to enabling the safe and secure reuse of electronics, recovery of natural resources from obsolete electronics, and safe and responsible recycling of electronics to divert waste from landfill. GEEP has over 500 employees across its 9 divisions located in Canada, the United States and Costa Rica.
